Introduction

Undergraduate researcher at **Sungkyunkwan University** pursuing B.S. degrees in Computer Education and Applied Artificial Intelligence. My research interests include multimodal large language models, visual reasoning, information retrieval, and reliable AI.

Education

Sungkyunkwan University (SKKU), Seoul, Korea	Feb. 2023 – Present
GPA: 4.2 / 4.5	
B.S. Computer Education (GPA: 4.39 / 4.5)	Feb. 2023 – Present
B.S. Applied Artificial Intelligence (GPA: 4.27 / 4.5)	Jul. 2024 – Present
M.S. Artificial Intelligence (GPA: -)	Aug. 2026 – Present

Experience

B.S./M.S. Integrated Program Student , Data & Language Intelligence Lab (SKKU), Seoul, Korea	Sep. 2026 – Present
Advised by Prof. Yunseok Choi	
Undergraduate Research Intern , Data & Language Intelligence Lab (SKKU), Seoul, Korea	Mar. 2025 – Aug. 2026
Advised by Prof. Yunseok Choi	
Undergraduate Research Intern , Multimedia Computing Systems Lab (SKKU), Seoul, Korea	Jul. 2024 – Feb. 2025
Advised by Prof. Eunseok Ryu	

Publications

International Conference

1. Kyutae Kim, **Dohun Kim**, Taesoo Park, Yunseok Choi†, “First News Report Retrieval for Short-Form Videos,” *ACM International Conference on Information and Knowledge Management (CIKM 2026)*

Domestic Conference

1. **Dohun Kim**, Yunseok Choi†, “A Dataset for Visually Grounded Question Answering in Infographic Chart Understanding,” *Summer Conference of the Korean Artificial Intelligence Association (CKAIA 2026)*
2. **Dohun Kim**, Neungjoo Kwon, Yunseok Choi†, “Examining Visual Grounding in Multimodal Large Language Models under Commonsense Conflict,” *Summer Conference of the Korean Artificial Intelligence Association (CKAIA 2025)*

Honors and Awards

Grand Prize (1st place) 2025 SKKU AI Hackathon Awarded by Sungkyunkwan University (SKKU)	Oct. 2025
Developed a multi-agent system to assist visually impaired users.	
Grand Prize (1st place) 2024 Data Secure Zone Utilization Joint Competition Awarded by the Ministry of Science and ICT (Ministerial Award)	Nov. 2024
Proposed statistically driven solutions to address Seoul’s parking challenges using private-sector data.	

Silver Prize (3rd place) | 2024 SKKU AI Hackathon
Awarded by Sungkyunkwan University (SKKU)

Oct. 2024

Developed a real-time video question answering system using RTMP streaming for visually impaired users.

Standards and Patents

Standards

1. Jun Young Jeong, Gun Bang (ETRI), Blazej Szydelko (PUT), **Do-Hun Kim**, Jong-Beom Jeong (SKKU), “[GSC][JEE6.2] Summary of MIV anchor generation,” document MPEG2025/m71473, 149th MPEG meeting of ISO/IEC JTC1/SC29/WG07, Geneva, Jan. 2025.
2. Jong-Beom Jeong, Yeong-Gyu Kim, Reagan Koo, **Do-Hun Kim**, Jun-Hyeong Park, Jaeyeol Choi, Eunseok Ryu, “[INVR][EE3] Report on EE3: MIV DSDE Anchor Generation on VRroom1D,” document MPEG2024/m69525, 148th MPEG meeting of ISO/IEC JTC1/SC29/WG04, Kemer, Oct. 2024.

Projects

Development of System for Detecting Manipulated and Deceptive Content

Apr. 2025 – Present

Funded by the Police Science Institute under the Korean National Police Agency (KNPA)

Investigation of MPEG 3D Space Video Compression Technology and Performance Comparative Analysis

Sep. 2024 – Dec. 2024

Funded by ETRI (Electronics and Telecommunications Research Institute)

Skills

Programming & Systems | Python, C/C++ , Git, Linux, shell scripting

Machine Learning | PyTorch, deep learning, multimodal/Vision-Language Models

Research | Information retrieval, visual reasoning, model evaluation, data analysis

Teaching Experience

Teaching Assistant (T.A.) | *Academic Writing in Social Sciences Using Python, SKKU* Summer 2026

Student Teacher (Teaching Practicum) | *Programming (C), Sunrin Internet High School* May – Jun. 2026

Teaching Assistant (T.A.) | *The Fundamentals of Data Analytics, SKKU* Fall 2025

Teaching Assistant (T.A.) | *Academic Writing in Social Sciences Using Python, SKKU* Summer 2025

Teaching Assistant (T.A.) | *The Fundamentals of Data Analytics, SKKU* Spring 2025

Teaching Assistant (T.A.) | *The Fundamentals of Data Analytics, SKKU* Winter 2024
